PROFILE

Enthusiastic IT student passionate about software development, Java programming, and database management. Experienced in building real-world applications using JavaFX, Servlets, and MySQL. Strong problem-solving skills and eager to learn new technologies.

PROJECTS

STUDENT TASK MANAGER APP

Java,MySQL,IntelliJ IDEA

- Built a task management system for students to organize their tasks efficiently.
- Implemented CRUD operations using JDBC and MySQL..
- Injected dependencies and build automation tools like: gradle.
- Performed unit testing.
- Implied authentication and security features.

HOTEL MANAGEMENT SYSTEM

Java, MySQL, NetBeans IDE

- Built with JavaFX for an easy-to-use interface, ensuring smooth interactions for hotel staff.
- Manages customer check-ins, room bookings, billing, and availability, streamlining day-to-day hotel tasks.
